REQUEST FOR PROPOSAL (RFP)

Project Title: Customer Mobile App for Harbor City Water (fictional)

Submission Deadline: March 1, 2027

1. Project Background

Harbor City Water is a fictional utility that wants one customer app for billing and outage reports. All names and figures are fictional.

2. Core Functional Requirements Matrix

Vendors must propose solutions matching the following functional groups:

Module Identifier	Core Feature Setup	Technical Integrations
MOD-01: Accounts and Sign-in	- Service number auto-verification - Fingerprint login on supported phones - Paperless billing enrolment	- Social login (fictional provider)
MOD-02: Billing and Payments	- Balance and due date prompts - Partial and advance payments in the app - Downloadable e-receipts	- Payment gateways and bank links
MOD-03: Outage Care	- Outage map with pins - Photo uploads for fault reports - Push updates on repair status	- Regional mapping system

Module Identifier	Core Feature Setup	Technical Integrations
MOD-04: Usage Analytics	- Appliance consumption calculator - Monthly usage trend graphs	- Smart meter data access

3. Non-Functional and Security Requirements

- Data Privacy: all personal data must be encrypted in transit and at rest.

4. Bidding Procurement Logistics

Proposals will be scored in two stages. Valid business permits must accompany the bid.

5. Project Implementation Timeline

The project will run for 12 weeks from contract signing.
