Request for Proposal: Riverbend Museum Collection and Visitor System

Issued by Riverbend Museum Foundation (fictional). All names and figures are fictional.

1. Background

Riverbend keeps its catalogue in spreadsheets and sells tickets at one desk. The foundation wants one system for the collection, for visitors and for conservation work.

2. Requirements

The bidder addresses each module in the table below.

Module	Features	Connections
Collection	- Object catalogue record - Loan and exhibition history	- Barcode scanner input
Visitors	- Timed-entry ticket sales - School group booking - Membership renewal	- Card payment gateway
Conservation	- Condition report with photos - Treatment approval workflow	
Operations	- Gallery attendance report - Staff role administration	- Finance system export

3. Non-Functional Requirements

Ordinary screens must answer within 3 seconds for 100 concurrent users.

4. Commercial Terms

Contract period of 8 months. Payment of 30% on signing, 40% on acceptance and 30% on go-live.
